Dear customers,

staying fit and healthy is something that is becoming of ever greater importance, especially as we are living for longer now.

We may, however, fall victim to fate, with accidents or illnesses throwing a spanner in the works of our future plans. At such times, it is all the more important to deal with the situation as best as possible to enable us to return to home and go back to work.

We at BVAEB would like to give you all the support you need to lead a healthy lifestyle, for you to stay healthy or to recover after whatever health issue may have affected you – after all, quality of life is nothing without your health.

This brochure is intended to give you an insight into BVAEB's comprehensive range of support in the areas of prevention, therapy and rehabilitation.

Take care of your health, prevent illnesses before they occur, consult your doctor and regain a substantial part of your quality life through therapy or rehabilitation.

With the very best wishes for your health

Dr Gudrun Wolner-Strohmeyer
BVAEB Chief Physician

Application and cost contribution

Would you like to apply for a health resort, convalescent care or rehabilitation stay or apply for a grant for a health resort stay?

Obtain the application form (HV-KUR 1) from your customer service centres or download it from our website www.bvaeb.at and give it to your doctor, who will fill in the medical section.

Please provide your personal details and send the form to your customer service centre or return it in person.

It is also possible to make an application via the MeineBVAEB app or submit documents via the MeineBVAEB online portal (see last page).

Please note:

Every claim for extended medical treatment requires prior approval. Please ensure you wait for such approval.

Cost contribution:

We are legally obligated to collect a contribution from patients to cover the costs of rehabilitation, health resort and convalescent care stays, which is payable before or at the start of the stay.

For rehabilitation stays, you pay the cost contribution for a maximum of 28 days per calendar year.

The amount of the cost contribution to be collected depends on the gross **monthly income** of the main insured person at the time of the application (also applies to co-insured relatives).

The following rates apply for 2026:

Monthly gross income	Daily contribution
Up to EUR 1.308,39	not applicable
Up to EUR 1.889,77	Step 1: EUR 11,06
Up to EUR 2.471,16	Step 2: EUR 18,96
Over EUR 2.471,16	Step 3: EUR 26,87

Your relatives are taken into account when calculating the amount of the contribution to be collected. EUR 755.73 is deducted from the monthly gross income for co-insured adults (e.g. spouses) and EUR 201.88 for each co-insured child.

You do not pay a cost contribution if you are under the age of 18, if you are in receipt of a higher family allowance or if you are exempt from prescription fees (exception: people who are exempt from prescription fees because they have reached the upper limit).

Please see our website for answers to frequently asked questions about health resort stays and rehabilitation:
www.bvaeb.at/faq-kur-reha.

BVAEB healthcare facilities

bvaeby Rehabilitationszentrum Austria

Stifterstraße 11
4701 Bad Schallerbach (Upper Austria)
Telephone: 050405-84090
Email: rz.austria@bvaeb.at
www.rz-austria.at

Areas of specialisation:

Rehabilitation for cardiovascular diseases

- Stays following all kinds of cardiac diseases
- Post-operative stays after vascular and heart operations
- Primary prevention of cardiovascular diseases
- Blood circulation disorders in the legs

Rehabilitation for metabolic disorders

- Diabetes mellitus typ 1 or typ 2
- Adipositas and metabolic syndrom
- Gastrointestinal disorders

Rehabilitation for respiratory diseases

- Stays for all forms of lung disease (except oncological diseases, CF and after lung transplantation)
- Pulmonary embolism
- Quitting tobacco and nicotine addiction

The Rehabilitationszentrum Austria is a smoke-free facility certified according to ISO 9001:2015 and ÖNORM 15224:2016. There are 177 single rooms with shower, toilet, television, Wi-Fi, telephone and loggia. If necessary, a ward with eight double rooms is available for care and use. We offer comprehensive diagnostic options, such as X-rays, ultrasound, nuclear medicine, laboratory, sleep and performance diagnostics. Our team of therapists covers all areas necessary to make a stay successful. Particular emphasis is placed on the psychological burden caused by cardiac disease.

bvae**g** **Gesundheitseinrichtung**
Bad Hofgastein

Gerichtsstraße 8
5630 Bad Hofgastein (Salzburg)
Telephone: 050405-88001
Email: ge.badhofgastein@bvaeb.at
www.ge-badhofgastein.at

Areas of specialisation:

Physio Aktiv – Treatment stays in the event of musculoskeletal disorders

- Rehabilitative care before and after joint replacement operations (hip/knee/shoulder operations)
- Conservative treatment after suffering from a slipped disc and for chronic back pain

“Kur plus” programme for musculoskeletal disorders with specific add-on modules

Treatment stays for specific indications

- With psychological care for trauma patients
- For rheumatic diseases such as ankylosing spondylitis, chronic polyarthritis and fibromyalgia (healing gallery)

The Gesundheitseinrichtung Bad Hofgastein comprises the two health resorts Hohe Tauern and Hanusch. It has a total of 129 single-occupancy rooms and 19 double-occupancy rooms. The rooms are equipped with a shower, toilet, television set, wireless internet, radio and telephone. All meals in the restaurant are freshly prepared every day in the restaurant.

You have access to baths that feature radon, a locally available resource, if this course of treatment is prescribed by a physician. Lounge areas invite you to relax. Outside of therapy hours, the swimming pool, sauna, and fitness room can be used.

bvae**Therapiezentrum**
Rosalienhof

Am Kurpark 1
7431 Bad Tatzmannsdorf (Burgenland)
Telephone: 050405-83857
Email: tz.rosalienhof@bvaeb.at
www.tz-rosalienhof.at

Areas of specialisation:

Rehabilitation for oncological aftercare

- Stays after tumour surgery or after chemo/radiotherapy
- Treatment for tumour-related pain (e.g. lymphedema, nutritional problems following gastrointestinal tumours)
- Offers for quitting smoking and nicotine dependency

Outpatient oncological rehabilitation phase 2 and phase 3

- Outpatient stay for oncological aftercare
- Offers for quitting smoking and nicotine dependency

Health resort stays

- Treatment of rheumatic/musculoskeletal disorders, with or without cardiovascular diseases and metabolic disorders such as diabetes mellitus or dyslipidemia
- Offers for quitting smoking and nicotine dependency
- Stays with a focus on Long COVID

The Therapiezentrum Rosalienhof is certified according to ISO 9001:2015 and ÖNORN EN 15224:2016. It provides a comfortable and safe environment

with its 126 single-occupancy rooms. The single rooms are equipped with a shower, toilet, radio, television set, wireless internet, telephone and balcony.

A breakfast buffet is provided every today, with a choice of three set menus, offered at midday and in the evening, which are prepared using fresh and often organic produce following the instructions of dieticians. These meals are supplemented by snacks, additional nutrition, salad buffet and even meals being prepared as required by the patient in special cases.

Buchenberg

© Markus Kaiser, Graz

Hötzendorfstraße 1
3340 Waidhofen an der Ybbs
(Lower Austria)
Telephone: 050405-82012
Email: tz.buchenberg@bvaeb.at
www.tz-buchenberg.at

Areas of specialisation:

Rehabilitation for neurological disorders

- Stays after ischaemic stroke and cerebral haemorrhage
- Multiple sclerosis (MS)
- Condition after brain tumours and viral and bacterial infections of the nervous system
- Motor neuron diseases
- Parkinson's disease
- Polyneuropathies

Rehabilitation for metabolic disorders

- Metabolic syndrome with a focus on diabetes (hypertension, dyslipidaemia, obesity up to 150 kg)
- Chronic inflammatory bowel disease
- Functional disorders in the gastrointestinal tract
- Food intolerances

Convalescence

- Treatment after operations and serious diseases

The Therapiezentrum Buchenberg, which is certified according to ISO 9001:2015 and ÖNORM 15224:2016, offers a total of 145 accessible single and double rooms for 156 guests. The neurology ward with eleven accessible double rooms meets hospital standards. Depending on availability, dual occupancy rooms can also be offered to guests with companions. Our treatment objectives include, among others, capacity to work, independence, mobility, ability to interact socially and pursue recreational activities, as well as long-term prevention.

bvae**Rehabilitationszentrum**
Engelsbad

© Marion Carniel

Weilburgstraße 7–9
2500 Baden bei Wien (Lower Austria)
Telephone: 050405-81090
Email: rz.engelsbad@bvae.at
www.rz-engelsbad.at

Area of specialisation:

Rehabilitation in the event of musculoskeletal disorders

- Stays after operations on joints and the spine
- Chronic musculoskeletal complaints

The Rehabilitationszentrum Engelsbad has 124 single-occupancy rooms equipped with a shower, toilet, television set, wireless internet and telephone, and some with a balcony or access to a terrace. 19 of these rooms are suitable for wheelchair patients (electronic height-adjustable desk and the toilet can be electronically adjusted to the height of the patient etc.).

All of the facilities at the Rehabilitationszentrum Engelsbad are accessible for disabled patients. There is a cosy café in the foyer to pass the time. All of the dishes in the restaurant are freshly prepared and available as a buffet.

Medical facilities at the rehabilitation centre include functional areas for various non-invasive diagnostic and therapeutic procedures (x-rays, shock wave therapy, magnetic pulse therapy and ultrasound), outpatient care, as well as treatment, exercise and training rooms in line with the required treatment for the indication.

bvaeb **Gesundheitseinrichtung**
Josefhof

Haideggerweg 38
8044 Graz-Mariatrost (Styria)
Telephone: 050405-87001
Email: ge.josefhof@bvaeb.at
www.ge-josefhof.at

Areas of specialisation:

Stays for nicotine cessation

- Stop smoking in 20 days

Stays for health promotion services for seniors

- Healthy eating *
- Healthy back *
- Persistent and active *
- Fit and strong *
- Mental health *
- Aging for the future **

One-time participation possible for persons * aged 60 to 69 and ** 70 upwards.

Built in 2019, the Josefhof „tobacco free healthcare facility“ has a total of 110 single-occupancy rooms and ten double-occupancy rooms, equipped with a shower, toilet, television set, wireless internet and a telephone, as well as a balcony or terrace.

All areas at the healthcare facility are accessible for disabled patients. All meals in the restaurant are freshly prepared to organic standards and offered in a buffet format.

Patients are invited to relax in numerous lounges, a library and two cafés. The leisure facilities on offer include an indoor swimming pool, saunas, infrared cabins, AlphaSphere loungers, cycling ergometer room, climbing room, bowling alley, covered multi-use area, orienteering jogging trail and two beach volleyball courts.

bvaeb Therapiezentrum
Justuspark

Linzer Straße 7
4540 Bad Hall (Upper Austria)
Telephone: 050405-85550
Email: tz.justuspark@bvaeb.at
www.tz-justuspark.at

Area of specialisation:

Rehabilitation for psychological disorders

- Stays for affective disorders, (depression, bipolar disorders), anxiety disorders, somatisation disorders, post-traumatic stress disorders, schizophrenia and other psychotic disorders
- Disorder-specific treatment methods for chronic forms of depression and work-related stress disorders
- Treatment of work-related post-traumatic disorders as well as psychosomatic disorders (chronic somatoform pain syndromes)

The Therapiezentrum Justuspark is certified according to ISO 9001:2015 and ÖNORM EN 15224:2016. It offers bright, friendly and comfortable individual rooms for 100 patients set in a first-class hotel environment. Each room has its own shower, toilet, television set, wireless internet connection, telephone and balcony. Parking spaces are available in the underground car park.

The modern treatment programme, based on the latest scientific findings and which integrates an innovative exercise and nutrition concept, is the cornerstone of a successful stay at the Therapiezentrum Justuspark, encouraging both convalescence and a long-term change in lifestyle.

Patients are invited to relax after treatment in various lounges, a library and roof-top terrace with a panorama room, a cafeteria and a sun deck. The range of recreational options is rounded off by a sauna, infrared cabin and extensive grounds.

bvaeb **Gesundheitszentrum**
Resilienzpark Sitzenberg

© Markus Kaiser, Graz

Gesundheitsplatz 1
3454 Sitzenberg-Reidling
(Lower Austria)
Telephone: 050405-86035
Email: gz.sitzenberg@bvaeb.at
www.gz-sitzenberg.at

Area of specialisation:

- **Stays for health promotion services** for employed insured persons and their dependants belonging to any health insurance provider

The Gesundheitszentrum Resilienzpark Sitzenberg focuses on optimising lifestyles on a sustainable basis, concentrating on the topics of health promotion and prevention. The stay is divided into a two-week basic stay and a follow-up week after around three months.

Areas of action:

- Exercise
- Diet
- Mental health
- Social health
- Health awareness

Facilities:

- Weights and endurance training area
- Exercise and gymnastics room
- Swimming pool
- Kitchen for teaching purposes
- Outdoor fitness park
- Outdoor exercise area
- Sports area
- Relaxation area (sauna, steam bath, infrared cabin)
- Kneipp baths, Kneipp pools, massage, hydrojet

We have 120 modern single occupancy rooms over three floors, each with their own balcony. Meals in our restaurant are freshly prepared. One area we focus on is diet optimisation – something reflected in the range of dishes available.

Inpatient rehabilitation

Rehabilitation helps to restore the health of people who have been physically or mentally affected by an accident or illness.

Rehabilitation stays are approved for periods of 22, 29 or 43 days depending on the indication.

Your cost contribution

In accordance with statutory provisions, you are required to pay a cost contribution for a maximum of 28 days per calendar year towards your rehabilitation stay. The amount of the contribution is calculated at the time the application is submitted. You always pay the cost contribution rate valid for the current year of your stay (see page 7).

Desired facilities

You can indicate your desired location on the application form. We will be happy to comply with this request if possible. **However, preference is given to owned facilities.** We only approve contract facilities if such BVAEB-owned are at full capacity.

Transportation to the facility

We will pay for an ambulance or taxi to the nearest rehabilitation facility if there is a medical reason to do so. Transportation for the journey to a rehabilitation facility must be approved by us before the start of the stay.

Interruption or early departure

You may only interrupt or prematurely terminate your stay for important reasons (e.g. illness, unforeseeable events, appointments with the authorities) and only with the consent of a physician.

Travel costs

If you are exempt from paying prescription fees during your stay, you can apply for travel expenses to the nearest rehabilitation facility to be reimbursed. However, you will not receive any travel expenses if you are exempt from paying prescription fees as a result of reaching the upper limit.

Convalescent care stays

Stays for convalescence are available for patients to speed up recovery following severe illness or surgery.

Such stays are granted for a period of 22 days.

Your cost contribution

You pay an additional amount for your convalescent care stay in accordance with the statutory provisions. The cost contribution amount is calculated at the time the application is submitted. You always pay the cost contribution rate valid for the current year for your stay (see page 7).

Transportation to the facility

We will pay for an ambulance or taxi to the nearest facility if there is a medical reason to do so. Transportation for the journey to rehabilitation must be approved by us before the start of the stay.

Interruption or early departure

You may only interrupt or prematurely terminate your stay for important reasons (e.g. illness, unforeseeable events, appointments with the authorities) and only with the consent of a physician.

Travel costs

If you are exempt from paying prescription fees during your stay, you can apply for travel expenses to the nearest rehabilitation facility. However, you will not receive any travel expenses if you are exempt from paying prescription fees as the upper limit has been exceeded.

Owned facilities

Health resort stays

A health resort stay requires a medical indication and a specific amount of time to have passed since the last stay.

Health resort stays are approved for a duration of 22 days.

Time limits

Two therapeutic treatments may be approved within five calendar years. The following services are considered therapeutic treatments: spa stays, inpatient stays for health promotion at the Health Centre Resilienzpark Sitzenberg, Active Health Promotion (GVA), contributions towards the cost of spa stays (KKB), rehabilitation stays (except for follow-up treatment), out-patient rehabilitation Phase 3, as well as corresponding services provided by other social insurance providers. A repeat stay of treatment may be applied for no earlier than 18 months after completion of your last stay.

Your cost contribution

You pay an additional amount for your stay at the health resort in accordance with the statutory provisions. The amount of the contribution is calculated at the time the application is submitted. You always pay the cost contribution rate valid for the current year of your stay (see page 7).

Desired facility

You can indicate your desired location on the application form. **Preference will be given, however, to our own facilities.** Only if these are full will we approve contract facilities.

Scope of coverage

We only pay for the contractually regulated treatments prescribed by the health resort's physician. You must pay for all other additional services yourself and you are not entitled to any reimbursement.

Interruption or early departure

You may only interrupt or prematurely terminate your stay for important reasons (e.g. illness, unforeseeable events, appointments with the authorities).

You may **not** interrupt or prematurely terminate your stay due to events such as weddings, christenings, birthdays, graduations or attending events.

Travel costs

If you are exempt from paying prescription fees during your stay, you can apply for travel expense reimbursement to the nearest rehabilitation facility. However, you will not receive any travel expenses if you are exempt from paying prescription fees as a result of the upper limit being exceeded.

Gesundheitsvorsorge Aktiv (GVA)

The **Gesundheitsvorsorge Aktiv (GVA)** is an overhauled medical treatment stay programme when a patient suffers from one or more musculoskeletal disorders. The modular structure enables the patient to receive treatment tailored specifically to their individual needs.

Stays under the Gesundheitsvorsorge Aktiv programme are granted for a period of 22 days.

The same conditions and deadlines apply as for conventional treatment stays.

Indication: Musculoskeletal disorders

Time-out together for caregivers

The “Time-out together for caregivers” offer is aimed at given caregivers the opportunity for physical and mental regeneration through a stay at a health resort.

In addition to receiving support from the in-house staff of caregivers and mobile assistance services, additional relief is offered to family caregivers.

Contributions for health resort stays

Contributions for health resort stays are allowances paid towards the board and lodging expenses when undertaking treatment at specific health resorts recognised by BVAEB.

The medical indication and the time interval since the previous health resort stay are prerequisites for a contribution to the costs of any such stay.

Contributions to health resort treatment costs are approved for a period of 21 days (indication skin diseases: 28 days).

Time limits

Two therapeutic treatments may be approved within five calendar years. The following services are considered therapeutic treatments: spa stays, inpatient stays for health promotion at the GZ Resilienzpark Sitzenberg, Active Health Promotion (GVA), contributions towards the cost of spa stays (KKB), rehabilitation stays (except for follow-up treatment), outpatient rehabilitation Phase 3, as well as corresponding services provided by other social insurance providers. A repeat stay of treatment may be applied for no earlier than 18 months after completion of your last stay.

Scope of services in Austria

We reimburse the therapies administered and the costs of physicians at the health resort in accordance with the applicable tariff. If there is no contract between the local health resort and BVAEB, you have to pay for the therapies yourself in advance. You do not pay a treatment fee for the therapies you have completed and for the costs of physicians at the health resort.

Scope of services abroad

We also approve health resort cost contributions for the following health resorts abroad. The contribution to the health resort costs already includes the therapy and physician costs at the health resort.

Travel expenses

If you are exempt from the prescription fee during your stay, you can apply for the reimbursement of travel expenses to the nearest health resort or for domestic travel. However, you will not receive any reimbursement of travel expenses if you are exempt from paying prescription fees as a result of reaching the upper limit.

General health resort stays

Grants

Stays by the sea

Stays by the sea are approved for a duration of 28 days. The location by the sea may be chosen by you.

Indication: Skin diseases (psoriasis and neurodermatitis)

Indication: Respiratory diseases (Asthma bronchiale)

For this indication, we require a diagnosis from the lung specialist indicating lung function (spirometry or spirography) and an allergy test, in addition to the completed application form.

Convalescent stays for children and adolescents

Convalescent stays are granted to provide after-care support for children and adolescents up to the age of 18 following an operation or serious illness.

Convalescent stays are approved for a period of 21 days.

Therapy for children and adolescents

Indication: Metabolism (diabetes mellitus, adipositas), respiratory disorders (asthma), neurological and oncological diseases

These grants are provided for stays that take place demonstrably under medical supervision.

They are approved for a maximum of 28 days per calendar year.
